## Medicare Advantage Preauthorization and Notification List

Please note the term “Preauthorization” (prior authorization, precertification, preadmission) when used in this communication is defined as a process through which the physician or other healthcare provider is required to obtain advance approval from the plan as to whether an item or service will be covered.

“Notification” refers to the process of the physician or other healthcare provider notifying ApexHealth of the intent to provide an item or service. ApexHealth requests notification, as it helps coordinate care for Apex Health-covered patients.

The list represents services and medications (i.e., medications that are delivered in the physician’s office, clinic, outpatient or home setting) that require preauthorization prior to being provided or administered. Services must be provided according to Medicare coverage guidelines, established by the Centers for Medicare & Medicaid Services (CMS). According to the guidelines, all medical care, services, supplies and equipment must be medically necessary. You can review Medicare coverage guidelines at [www.cms.gov/medicare-coverage-database/](http://www.cms.gov/medicare-coverage-database/).
